## 8 Safety Instructions for working on Airbags

**Working on Airbag systems has to be executed exclusively by especially trained qualified personnel.**

Notes for working on Airbag systems:

- Remove the ignition key and disconnect the battery.
- Wait at least 5 minutes. Only then you can work on the Airbag systems.
- Discharge yourself before you work on an Airbag unit by touching the latch of the door.
- Airbag units which have been removed are always put down face up.
- During the works on the Airbag system you have to be very careful.
- Additionally, the safety notes of the corresponding manufacturer are valid.

**Kufatec GmbH & Co. KG does not assume liability in any case of damage!**
